

Show Me Your Face  
(c) 2016 Don Potter

(Chorus )

Dmaj7                    Gmaj7        A/G                    F#m  
Show me Your face Lord            Show me Your face  
F#m/B                Esus                                    A7                    Dmaj7        G/A    A  
Then gird up my legs that I might stand in this holy place  
Dmaj7                    Gmaj7        F#7                                    Bm    Bm/A  
Show me Your face Lord            Your power and grace  
Gmaj7 G/F#                Em                                    G/A                    G2    G2 (2 Chorus G/A A)  
I could make it to the end            If I can just see Your face

(Verse )

D                                    A/D                G/D                                    A/D  
Moses stood on the mountain            Waiting for You to pass by  
D                                    A/D        G/D                                    A/D  
You put Your hand over his face            So in Your presence he wouldn't die  
Em    A                F#m                                    Bm                Bm/A        G        G/F#  
All of Israel saw the glory    And it shines down through the age  
Em                                    Asus    A                                    D    G/A    A  
Now You've called me to boldly            seek Your face

(Verse )

D                                    A/D                G/D                                    A/D  
David knew that there was something more            than the Ark of Your Presence  
D                                    A/D                G/D                                    A/D  
And in a manger a baby was born            among kings and peasants  
Em    A                F#m                                    Bm                Bm/A        G        G/F#  
All of Israel saw the glory    And it shines down through the age  
Em                                    Asus    A                                    D    G/A    A  
Now You've called us to boldly            seek Your face

(Ending)

|: Gmaj7 G/F#                Em                                    G/A                                    G2 :|  
I could make it to the end            If I can just see Your face
